# Edit content

In the topbar above the content area all actions to the currently selected object can be found.

1. Opening the project, folder, analysis or datamodel.

2. Editing the project, folder, analysis or datamodel will allow you to edit the name and in case of the analysis to select the connected datamodel.

3. Copying will copy the object to the clipboard.

4. Cut will remove the selected element and copy it to the clipboard

5. Paste is only active in case an element is currently stored in the clipboard and can be pasted to the current position.

6. Delete will irrevocably remove the object.
