1. Recent exceptions: You can view up to 50 exceptions and they are stored for 14 days. This helps the admin to analyse irregularities and perform user troubleshooting.
2. Exception Details: the exception details give a quick overview of the time, user and exception message, e.g. "Passwords do not match".
3. Stacktrace: deeper information on the error log presented by the system.
4. Download: you can also download the summary as txt file for further analyses e.g. for attaching it to a bug report.
