## Main Menu

After login, you will be redirected to the main menu that is shown in Figure 1.2. Here, you can handle your documents as well as access any other part of the SAP Process Mining by Celonis system.

In the top left corner you can see the button which will bring you back to the main menu every time you click it.

In the corner on the right of the navigation bar you can see two dropdown menus: The User Menu (carrying your name) and the Navigation Menu. Depending on your user role, the elements shown in the two dropdown menus may vary (a detailed description of the user groups and their roles as well as rights is given in the article about User Roles).
