# Activity Selection

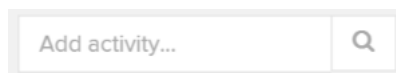

With the Activity selection, you can filter for cases, that pass, start-/end in certain activities.

On the left side, you won't see the available talbes any more, but all activities, that are included in these tables. You can drag & drop them in one of the 4 fields in the center.

To search for an activity, you can also use the search field

Alternatively you can also use the search field in all 4 sections.

Case Flows Through

Add an activity here, if you wish to filter the cases that pass this activity on their process path.

CASE FLOWS THROUGH	ALL
Add activity...	🔍
