Application To Users

In this step, you have to apply the authorizations to the respective users/groups

Open the Users tab on your homescreen and select an affected user:

System Administrator 🗸	
🌣 My profile	
Help	
Transports	
Benchmarking NEW	
🔺 Users	
Groups	
Authorizations	
📽 System Settings	
🔁 Log out	

Choose Users to access the user overview.

blocked URL

Click on the here - or on the authorization link on the bottom of the form to get to the authorizations view:

blocked URL

Now you can choose the authorization objects that should be applied and add the according values.

Once you have done this, the user can only view the part of the data you have authorized him/her for.
