

DM: Tables

The tables section offers a list of all included tables in your data model.

Search by table name	Q	Import data ▼
EBAN		
EKET		
EKKO		
EKPO		
EKBE		
EKES		Edit
LFA1		
LFB1		
NAST		
_CEL_F2P_ACTIVITIES		

Hover any table, and a small [blocked URL](#) icon appears.

Click on this button, to access the table settings:

Q

☐ Hide table in analysis

Table role

☐ No Role ⓘ

☐ Activities table ⓘ

☒ Cases table ⓘ

You can **rename** the table, add a **description**, reconfigure its **connection** or even hide the table in your Analysis.

You may additionally privilege the table to be the Cases – or Activity Table.

Click on *Columns* to edit the table's columns.

I 14	BEDNR ⓘ	STRING	<input type="checkbox"/>	<input type="checkbox"/>
I 15	MATKL ⓘ	STRING	<input type="checkbox"/>	<input type="checkbox"/>
I 16	INFNR ⓘ	STRING	<input type="checkbox"/>	<input type="checkbox"/>
I 17	IDNLF ⓘ	STRING	<input type="checkbox"/>	<input type="checkbox"/>
I 18	KTMNG ⓘ	FLOAT	<input type="checkbox"/>	<input type="checkbox"/>
I 19	MENGE ⓘ	FLOAT	<input type="checkbox"/>	<input type="checkbox"/>
I 20	MEINS ⓘ	STRING	<input type="checkbox"/>	<input type="checkbox"/>
I 21	BPRME ⓘ	STRING	<input type="checkbox"/>	<input type="checkbox"/>
I 22	BPUMZ ⓘ	FLOAT	<input type="checkbox"/>	<input type="checkbox"/>

You can tag each column with two Attributes: **Hidden** and **Default**.

- **Hidden** – The column won't appear in any Analysis that is created using this Data Model.
- **Default** – The column will be applied automatically to the initial view of the Case Viewer.

This is of special interest if you are using a table with a large amount of entries, and would like to structure your initial Analysis.
