# Line

This is another tool to design your analysis sheet.

You can insert lines and turn them into arrows to seperate, surround or highlight certain sections.

This screenshot shows 4 seperate line components. 3 of them are configured as arrows.
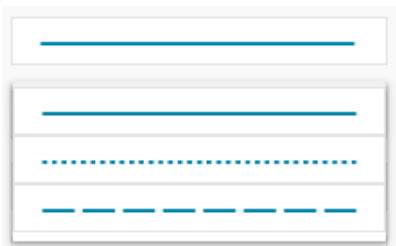

Configuration

The following configuration options are available:

Start choosing a **style**.
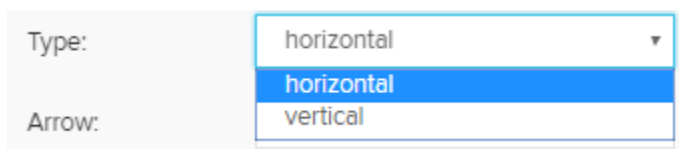

The dropdown menu offers the following options:

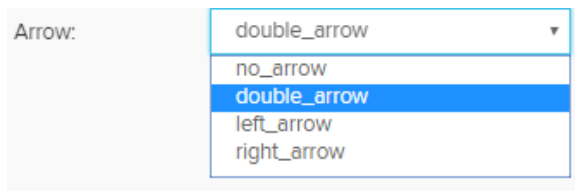

Now let's choose a **color:**

You can choose between different levels of thickness...

... and set the type of your line, which will determine, wether your line is aligned vertical or horizontal:

Type: horizontal ▼
horizontal
vertical

Arrow:

Finally, you can set your line to be an arrow:

Arrow: double_arrow ▼
no_arrow
double_arrow
left_arrow
right_arrow

Arrow: double_arrow ▼
no_arrow
double_arrow
up_arrow
down_arrow

(for horizontal lines)

(for vertical lines)
