

Edit KPIs

This section relates to the KPI section that is visible in the [Overview](#).

You can create your own custom KPIs in the *Edit KPIs* section.

Name	
Total Throughput Time	
Formula	<div><code>AVG(CALC_THROUGHPUT(ALL_OCCURRENCE['Process Start'] TO ALL_OCCURRENCE['Process End']</code></div> <div>$f(x)$</div>
Units	<div>h</div>
Subtitle	

Enter a Name and a unit.

To enter your KPI statement, you can again use the well-known [Formula Editor](#).
